

P1 Home Learning Choices set 1

We have numbers on lots of things in the house. Your front door, in a book/magazine and on clocks, for example. Go on a number hunt around your house. Can you copy the numbers down? Extra challenge - can you put them into the right order?	Square Triangle Rectangle Circle Shapes are all around us. Copy these 4 shapes onto paper, taking a separate row for each. When you find something in your house that most resembles one of these shapes, put a little mark beside it. E.g. - your TV will probably look most like a rectangle. Which shape did you find most of in your house?	Dice roll Use a dice and roll it. Whatever it lands on count the dots and try to write the number down. Extra challenge – roll your dice 2 times (or 2 dice if you have them) and see how many dots you have altogether.	Practise counting. Count up as high as you can, then try counting backwards. Try to start at different numbers for an extra challenge.	Find 10 objects in your house – e.g. 10 pencils. Then see how many ways you can make different numbers. e.g. making number 7 You could have 6 pencils in one group and 1 pencil in another group. You could have 5 pencils and 2 pencils or even 4 pencils, 1 pencil, 1 pencil and 1 pencil. See how many different ways you can make a number.
Think of all the letters you have been learning and already know. Write them down and try copying them another 4 times. Give a little tick to the one you think is your best.	Choose a nursery rhyme or a short film you have watched. Can you draw a picture of what happens at the start, what happens in the middle and what happens at the end of it?	Choose a letter you know e.g. S Look around the room you are in and see how many things you can find that begin with this letter e.g. sofa, socks	Listening One minute can actually seem like a really long time. Close your eyes for this time then after the minute is up, can you draw all the things you heard? Sit somewhere where you have a better chance of hearing	Draw a picture of one of the friends that you are missing. Tell someone at home words you would use to describe this friend and they will write these <i>dotted</i> words around your

			more things e.g. beside an open window.	drawing. E.g. blonde, funny, kind etc. You can then practise your letters by going over the dotted words.
RME Watch the clip of the story about the Good Samaritan https://www.youtube.com/watch?v=IWmBQ5ZYub4 Due to COVID, we have been hearing lots of stories about people being kind and helping out others. Draw a picture of someone you have heard about who has been especially kind and helpful.	Think of one kind thing you can do each day you are off that is going to help others.	You may not be able to get out of the house for some exercise, so why not try some Cosmic Kids Yoga. There are lots to choose from. https://www.youtube.com/user/CosmicKidsYoga	Art Watch this 'Drawsmall' link. https://vimeo.com/413069049 The artist here has found some small items from their house and is showing you how to look carefully at the objects and how to draw them by making small movements. This is trickier than it looks. What items will you choose?	Make your own game of crazy golf. Use rolled up paper as your club and ball and use different things in your house to make it an obstacle course. Have fun!
